

完成研究項目 (至 2006 年 6 月)

**Mr CHAN Ka-Ming, Rick**

Title: Validation of the Cadence Curl-up Test for Measuring Abdominal Muscle Endurance in Secondary Female Students.

**Mr CHAN Kai-Tai**

Title: The Repeatability of the Questionnaire Items Used for Tennis.

**Ms CHENG Mei-King**

Title: Vestibular Exercise and Spatial Working Memory in Children.

**Mr CHEUNG Muk-Yan**

Title: Pedometer-Determined Physical (Ambulatory) Activity of Hong Kong Adolescents: Relationship with Body Composition Variables.

**Ms CHEUNG Tik-Lun**

Title: Effect of an Exercise Programme on Lower Limb Strength, Balance and Walking Speed in Elderly with Visual Impairment.

**Mr CHIU Tak-Wing**

Title: Validation of various anaerobic threshold determination methods as related to maximal lactate steady state in rowing.

**Ms CHOY Tak-Fung, Sherrie**

Title: Relationship between physiological characteristics and exercise performance in recreational marathon runners.

**Ms CHU Ching-Han, Jenny**

Title: Reliability and Validity of Classical Sit and Reach Test and CUHK Sit and Reach Test in Female Secondary School.

**Ms FOK Wai-Yi, Louisa**

Title: Exploring the Exercise Dependence Problem: A Qualitative Study of the Sociocultural Consequence of Exercise Dependence Behavior.

**Mr FU Yuk-Lun, Alan**

Title: Effect of a 100 km Hill Walk on Metabolic and Muscular Responses.

**Mr FUNG Chiu-Wai**

Title: Perception and Participation of Hong Kong Parents on Physical Activity: Influence on Children Physical Activity Level.

**Mr HO Ho-Yee, Alexandra**

Title: The Short Term Effect of Core Strengthening Exercise on Physical Performance of Tennis Players.

**Ms HO Yi-Lan**

Title: A Content and Textual Analysis of Weight Reduction Advertisements of Popular Magazine in Hong Kong.

**Ms HUNG-Wing**

Title: Fluid Balance during and after a 100 km Hill Walk.

**Mr KONG Chi-Keung**

Title: Weight-for-Height and Limb Compositions in Nasogastric Tube Fed Children with Quadriplegic Cerebral Palsy.

**Mr KWONG Siu-Leung, Kenny**

Title: Relationship between physiological characteristics and exercise performance among recreational runners during the Hong Kong Standard Chartered Marathon.

**Mr KONG Yu-Keung**

Title: In Vivo Method for Evaluating Tennis Shoe Comfort with Visual Analogue Scale.

**Mr KWOK Tak-Yin**

Title: Functional Fitness Assessment for Independent Hong Kong Elderly.

**Ms LAM Fong**

Title: Effect of 100 km Trekking on Lower Limb Muscle Soreness, Serum CK Response and Muscle Function.

**Ms LAM Ka-Wai, Kaisy**

Title: The potential community impacts of hosting equestrian events at the 2008 Beijing Olympic in Hong Kong.

**Mr LEE Hing-Yin**

Title: Energy Expenditure and Cardiorespiratory Response of a 10-min Yang Tai Chi Chuan and Yeung-Sang Qui.

**Ms LEUNG Fung-Lin, Elean**

Title: Attitudes towards physical activity and exercise habits of alumni from universities with different physical education programs in Hong Kong.

**Ms LEUNG Lok-Yin, Pat**

Title: Relationship between TV Viewing, Physical Activity and Obesity in Schoolchildren.

**Mr LEUNG Man-On, Chris**

Title: The Association between Occupational Physical Activity and Physical Fitness.

**Mr LEUNG Ping-Kwan**

Title: Comparison of reliability and validity between sit and reach tests with and without sit and reach box & An introduction of a new low back flexibility field test .

**Mr LEUNG Tai-Wai**

Title: Evaluation of the standard of the annual fitness test (2.4 km run) of correctional services department.

**Mr LI Kwok-Keung, Jacky**

Title: Validation of Suunto t6 for measuring energy expenditure on free-living physical activities.

**Ms LO Siu-Yuk, Rosana**

Title: Effects of warm up on standing long jump performance.

**Mr LOW Po-Tin**

Title: The Relationship between Television Viewing and Obesity in Hong Kong Schoolchildren.

**Mr MA Kin-Kwok**

Title: Male secondary school students' attitudes toward physical education and their participations in physical activites.

**Ms NG Nga-Sze**

Title: Perceived Parental Influence on Middle Class Adolescents' Participation in Cultural Activities: A Qualitative Study.

**Mr NG Ping-Wing, Steven**

Title: Comparison of the lower extremities characteristics through electromyography between veteran and recreational tai chuan practitioners.

**Mr SIN Kwok-Yeung, Anthony**

Title: Criterion-related validity and the reliability of the classical sit & reach test and the modified back-saver sit & reach test in middle-aged group with regarded to low back pain.

**Ms TAM Mei-Yuk, Melanie**

Title: Compare the modified back-saver sit & reach test and chair sit & reach test in their comfort and measures of flexibility in the middle-aged in Hong Kong.

**Mr TANG Ying-Kit, Vincent**

Title: Validity of different cadences of revised push up in assessing upper body muscular strength.

**Mr TONG Wan-Kei**

Title: The Cardiorespiratory Response and Energy Expenditure during Exercise in Tai Chi Chuan and Walking.

**Mr TSANG Ka-Man**

Title: Objectivity, Reliability, and Validity of the Modified Push-up Test for Female Secondary School Students.

**Mr WAI Chun-Ho**

Title: Heart Rate Response to a 100 km Hill Walk.

**Mr WONG Wan-Chung, Joseph**

Title: Perceived Determinants of Physical Activity of Ethnic Minority Youth in Hong Kong.

**Mr WONG Wing-Sum**

Title: The Relationship between Occupational Physical Activity and Health and Fitness in Hong Kong Male Workers.

**Ms YUEN Wing-Ki, Winkie**

Title: Relationship of parental physical activity and activity levels of children.

**Ms WU Yuet-Ming**

Title: Physiological and Nutrition Profile of Hong Kong Junior Cyclists.
